“ My husband and I had a holiday in Kenya last year that surpassed our expectations. We spent two nights in Finch Hattons in Tsavo West followed by three nights in Mahali Mzuri in the Mara. Both properties were extraordinary and the experience at each camp made for the perfect holiday combination of ‘safari’ and ‘relax’ that we were hoping for.

The highlights staying at Finch Hattons included incredible game drives across diverse landscape, the luxurious rooms – and service. What makes Tsavo West so spectacular is the changing scenery of the park: volcanic, lush and green, lunar, rugged; and that you see almost no other jeeps on your path.

Mahali Mzuri is easily accessible from Finch by safari link. When you arrive at Mahali, the view into the valley is mind blowing. The camp is set in a private conservation which is so beautiful, the guides are extremely knowledgeable and the game is plenty! We must have seen 13 lions within the first 12 hour of our first drive!

The flying package opened our eyes to the variety and beauty of holidaying in Kenya – absolute magic.
