

## ASANJA MORU Luxury Bush Camp - Serengeti National Park

“In our community people with long hair are the warriors and the warriors are not supposed to marry but they have Asanja (lovers)”

### FACT SHEET

#### Location:

Ideally located in the southern central part of Serengeti, amidst the Moru Kopjes and on the path of the migration, which is one of the ten natural wonders of the world. Due to the presence of water, this is a good area for game viewing throughout the year. Nearest airstrip is Seronera.

#### Climate:

The Serengeti falls into the classic bimodal rain pattern of East Africa. The short rainy season is between November to January and the long rainy season is between March to May. The climate is usually warm and dry with mean temperatures varying between 15 degrees to 25 degrees Celsius. Guests should expect to enjoy sunny warm days however, we suggest to bring a cardigan as the evenings can get quite chilly.

#### Accommodation:

The camp is very exclusive with 7 standard and 1 family luxury guest tents. The tents are spacious and have a private verandah overlooking the scenic views of the Serengeti plains. All the tents have en-suite bathrooms with flush toilets and hot showers.

#### Electricity:

The camp is powered by a generator and in the evenings an inverter is operational.

#### Water:

Our guest tents are equipped with safari showers and flush toilets. We use boilers that run on Briquettes to heat all the water for our guest purposes.

#### Solid Waste:

Our waste is segregated into categories. All our bio degradable waste is composted in a closed and locked pit and the remainder is packed and then transported back to Arusha for proper disposal.

#### Private Events:

The property is an ideal gateway for small exclusive groups and couples. Wedding can also be arranged.

#### Game Drives:

We provide High quality 4X4 safari vehicles for game drives with qualified guides.

#### Seasons:

Asanja Moru is open throughout the year.
