

## DIVING PACKAGE - 2019

### AZURA QUILALEA PRIVATE ISLAND

The protected reefs in the Quirimbas Archipelago offer some of the most spectacular scuba diving in the World. These undisturbed, untouched dive sites are abundant with a variety of fish and corals, and offer a range of depths and reef topography to suit beginner and experienced divers alike. With a location as remote as ours, these dive sites offer a rare opportunity to discover an underwater world that is visited by just a few lucky divers each year.

**6 NIGHT STAY** - Including Five Dives *(all equipment, refills, refreshments and instructor leading the dives.)*

Sencar Kayak					\$70 pp		
Night Snorkel					\$30 pp		

## Explore our incredible house reef offering direct access from the main beach

The house reef is perfect for a refresher or first time dive and a unique location for a night dive for qualified divers. In addition to this reef, there are another 17 dive sites one can visit that include some fantastic drop offs and coral gardens located both inside and outside of the Quirimbas Archipelago Marine Sanctuary. You will see a plethora of marine life: green and hawksbill turtles, humpback whales (seasonal), reef sharks, stingrays, devil rays, moray eels, dolphin, grouper, as well as a variety of reef fish such as surgeons, puffers, Moorish idols, parrot fish, clown fish, trigger fish and chocolate dip fish. Hard and soft corals are in abundance, with nudibranchs for those who like to spot the smaller stuff.

Azura has a full range of high quality dive equipment. The training pool on the bar deck is perfect for refreshing your diving skills or taking the plunge for the first time, and for training dives the house reef is ideal being just a few metres out from the beach. A PADI Discover Scuba course, which includes your first reef diving experience, can be completed in just a few hours. Children are welcome to enjoy our Bubblemaker course from age 8 as well as learn how to dive from the age of 10 upwards.

**Please contact us for more information on the different dive sites available.**
