

AZURA QUILALEA PRIVATE ISLAND CHILDREN AND TEEN ACTIVITIES

Fish Identification

Let your children go snorkeling with a guide to learn all about our wonderful sea life. They will be given a fish slate to identify the fish & sea life and they will receive a certificate for correctly identifying the species. The ocean is a fascinating place and can be captivating even to the youngest mind.

Sand Castle Building

With the beach being the biggest sand pit and therefore a child's dream let them come and show their architectural skills on the beach. Building Sand Castles is fun for any child and if you need some time alone keep them busy with one of our guides while you take a romantic walk around the island. It promises hours and hours of fun.

Big Five Birds of Quilalea

These are the five birds most commonly seen. We challenge the children to identify these birds and they will be fascinated by their sounds and beautiful colors. With a bird chart and a pair of binoculars in hand, they will have endless fun and our staff is ready to help whenever needed.

KINDLY NOTE: All activities are subject to weather and tidal conditions as well as boat and guide availability.

Fun in the Kitchen

Let your children join our chef in a cookie baking lesson. It's perfect for days when they feel like doing something a little different. They will be taught all the ins and outs of the world of cookie baking.

Treasure hunt

A treasure hunt is an exciting way for the children to explore the island while having fun at the same time. They will receive the clues and a map from one of the team and receive a prize at the end of their journey.

Stargazing

The astronomical world is fascinating. It seems complex, but we explain it in a fun way. The Kids Star Talk will cover everything from planets to legends about star signs to the stars in our galaxy. With our amazing telescope, the night sky comes to life.

Diving for children

What could be more exciting than learning to breathe underwater! Not many people know that from the age of eight, your child can learn how to dive. With our Bubblemaker course, kids between the ages 8-10 can learn how to dive in the pool with our qualified PADI Instructor. They receive a fun crew pack once they have completed the course.

If they are ten and over, they can do a Discover Scuba Course which includes a sea dive to a limited depth. Alternatively, the PADI Junior Open Water course will qualify the children to dive to a depth of 12m anywhere in the world. This is a great gift to give your child as they never lose this certification. Once they have completed the Open Water Course, they will be able to dive for the rest of their lives and it's a sport that is loved by thousands around the world.

Shore Fishing

With all the juvenile gamefish hiding close to shore on the reefs around the island, it creates the perfect scenario for a fisherman in training. Our guides can take your children on a fishing adventure around the island and teach them to catch their first fish. Most children love fishing and have a great talent to cast a rod first time. We support a catch and release policy which ensures that the fish survive. This also gives us an opportunity to teach the children about conservation.

Kids SPA

All girls like to be pampered! Why not join our therapist for a Kids mini manicure, pedicure or a 15 minute Indian head Massage at our beautiful cliff top spa.

KINDLY NOTE: All activities are subject to weather and tidal conditions as well as boat and guide availability.
