PHOTOGRAPHIC SAFARI ON THE CHOBE RIVER

&Beyond Chobe Under Canvas

Guests staying at **&Beyond Chobe Under Canvas**, in Botswana's iconic Chobe National Park, are able to embark on a truly unforgettable photographic safari.

Tailored for the photographic enthusiast, of all levels, as well as wildlife fanatics, this incredible half-day adventure will allow guests to capture the magnificent fauna and flora of the Chobe River, aboard a custom-built Pangolin photographic boat.

Guests will be accompanied by professional photographers who will offer expert tips and recommendations on how to capture the most breath-taking images. Every seat on the boat is fitted with a top-of-the-range camera, which is fixed to a customised mount, so guests needn't bring their own equipment. However, should guests feel more comfortable using their own camera, they can easily be attached to the mounts too. Refreshments will be provided for the duration of the adventure. This activity is complimentary when staying at **&Beyond Chobe Under Canvas**.
