Ekorian Ltds HEALTH AND SAFETY POLICY on COVID-19

During this time of Covid 19 pandemic we have implemented protocols that adhere to the government regulations to ensure the safety of our staff and guests.

Guests experience:

- We will be taking a more 'help yourself approach' to our services for now, with guests helping themselves to drinks, tea, coffee and self service of food. We ask our guests to be understanding of this decision and hope that it won't take away from their holiday experience but be a more relaxing approach to staff and guests interactions.
- We ask all our guests to be aware of the symptoms of Covid 19 before they come on safari and if they are displaying any symptoms to delay their safari or seek testing.
- All guests temperatures will be taken with head thermometers on arrival at Ekorian, we will ensure this is as non invasive as possible.
- All our staff will be wearing masks in communal areas and we ask that our guests do too.
- All tents will be disinfected before guests arrive, as well as daily cleaning while the guests are in camp.
- We have provided handwashing stations for the guests in the communal areas with hand sanitizer.
- All vehicles will be disinfected daily before guests use them and will be equipped with hand sanitizer.
- All cold boxes, coffee bags etc will be disinfected between uses
- All groups of guests will be given exclusive use of vehicles
- We will be offering exclusive meals and services whenever possible
- We have systems in place for cashless money transactions

Staff:

- Our core staff have been tested for covid 19
- All staff have daily temperature readings which are recorded and monitored.
- They are well educated on personal hygiene and regular hand washing.
- Our staff will be wearing masks in communal areas.
- There will also be minimal transaction between guests and staff
