BASECAMP MASAI MARA

Our very own 'cradle of mankind'

Basecamp Masai Mara is where our story started. Lovingly run by our Maasai staff, this is as much a home as it is a tourism destination. Here guests become more than visitors, they become part of the Maasai community. Thanks to our treeplanting efforts, Basecamp Masai Mara has turned into a tree lover's paradise and a haven for birdlife. Each morning a symphony of birdsong will wake you up as the sun rises over the world-renowned Masai Mara National Park, home to the greatest gathering of wild animals on the planet. Masai Mara is only a short walk away across our private suspension bridge.

OUR RIVERSIDE TENTS

All our tents are fitted with twin or double beds, bio-flush toilets, solar-heated safari showers, and a private balcony, where you have direct view of the Masai Mara National Reserve. The Family Riverside Tent is the perfect choice for larger groups, or for families travelling with children. The tent has two separate wings, each featuring a double bed with a shared bathroom area.
