

Seashells Hospitality Group is taking necessary precautions to ensure the safety of its guests and staff during the COVID-19 pandemic.

We take our advice specifically from the Western Australian Government and WA Hotels Association – who in turn seek direct advice from the Australian Government Health Department. The WAHA is constantly monitoring the Coronavirus situation working closely with the Commonwealth (through AHA) and WA Government on strategies to help avert the effects that the situation will have on tourism, Hotel guests and staff by;

- Maintaining constant contact with Tourism Australia and Tourism Western Australia;
- Monitoring Commonwealth Department of Health and World Health Organisation advice; and
- Participating in industry crisis co-ordination task forces at a State and National level.

For up-to-date information directly from the Australian Hotels Association service please open provided links.

If you have an existing booking and would like to enquire about it, please contact our properties directly - contact details are available:
<https://seashells.com.au/contact/details/>

If you are staying with us you may encounter service limitations due to Government imposed restrictions, including pool closures.
[Please check with the property](#), Thank you for understanding.

If you need long-term accommodation to self-isolate within your region, please [contact our properties](#) individually and ask the Manager to discuss your requirements and find out about the discounted rates we have available.
